Discussions: As we move forward, we must make sure we document our proceedings well, so there is a complete record of how the ordinances were crafted.

A. Tyler wants to make it clear that he can divorce himself from his position as we move forward . Furthermore, he wants to make it clear that he does not work for, or have any connections to LS Power.

Tyler does know the counsel for LS Power, but has no connection with him, except to inform him of the results of the town survey.

B. There was a debrief of the special town meeting. It was felt it was productive. Many positions were expressed, and in the end the town's opinions were heard.

C. Motion to proceed to amend the CDO to consider Power Transmission Lines and Solar Farms.

D. Scheduling of Planning Board meetings: In order to accomplish these amendments, the Planning Board realizes more time must be devoted to this so we are increasing the number of meetings that will occur.
