

CDAC meeting 4.2.25

Attending: Lissa, Sean, Samantha, Lex, Prentice

Main purpose of the meeting was to do a final review of the three proposals received for the Landscape Design/Concept plan for the Cannery Lot final stage in our Community Action Grant.

Three proposals were received, from Context By Design, Viewshed and Regina Leonard Landscape Architect. We agreed that all three were very qualified. Regina's work was very good but the price tag was too high (we later learned that it was an error, but she was very gracious about it). Viewshed approach seemed rather simple. Steve Ribble of Context by Design offered the most robust analysis and had invited time visiting the site before submitting his proposal.

We selected Context by Design. It was agreed that Lissa will communicate with him, communicate with the others that they were not selected but that we appreciated their work and would contact them in the future if needed. Once agreed with Steve, Lissa will get the contract signed by Selectboard.

Everyone is very excited about proceeding with the work.
