§9 Preservation of Natural and Historic Features

The Planning Board shall require that the proposed park include a landscape and management plan that will show the preservation of scenic, historic and environmentally desirable areas and any areas identified by the Maine Natural Areas Program.

§10 Safety Standards

Any mobile home park will comply with the requirements of [24 C.F.R. 3280](#), and the requirements of the [Maine Manufactured Housing Board](#).

§11 Sanitary Standards

A. Sewage Disposal

1. All water carried sewage shall be disposed of by means of one of the following:

1. A centralized private sewer system shall be approved by the State of Maine Department of Health and Human Services.

11. Individual subsurface sewage systems located on soils approved by the local Plumbing Inspector and designed in accordance with State regulations.

B. Refuse Disposal

The storage, collection and disposal of refuse in the mobile home park shall be so conducted as to create no health hazards, rodent harborage, insect breeding areas, accident or fire hazards, or air pollution.

§12 Fire Protection

A. If the mobile home park is to contain 20 living units or more and the park is not served by a piped central or public water supply then the developer shall construct a pond or ponds with suitable dry hydrant(s) within ½ mile of the proposed park to provide adequate water storage for fire-fighting purposes. An easement shall be granted to the Town of Freedom, Maine granting access to and maintenance of the dry hydrant(s) where necessary. The Planning Board may waive this requirement only upon submission of evidence that there is an existing pond with dry hydrant(s) within ½ mile of the proposed mobile home park or that the soil types within ½ mile of the proposed mobile home park will not permit their construction. The burden of proving this rests solely with the developer.

B. If the park is served by a piped central water supply then the developer shall install fire hydrants within the park at the rate of one hydrant for every six units or less.

§13 Storm Drainage

A storm drainage plan shall be prepared by a professional engineer licensed by the State of Maine showing ditching, culverts, storm drains, easements, and other proposed improvements sufficient to

§15 Utility Requirements

All mobile home parks shall provide permanent electrical, water, and sewage disposal connections to each mobile home in accordance with applicable state and local rules and regulations. State rules and regulations shall take precedence over local rules and regulations in the event there is a conflict.

§16 Signs

Signs and advertising devices shall be prohibited in the mobile home park except:

- A. One identifying sign at each entrance of the mobile home park no larger than 24 square feet which may be indirectly lit, but not flashing.

- D. Mobile/manufactured home address signs. The styles and location of the identifying sign shall not interfere with vehicle sight distance.

§17 Roof Loads

All homes to be located in the mobile home park with roofs added after manufacturing will require a professional engineer, licensed in the State of Maine, to inspect the roof to determine that the roof and home can withstand the extremes of the local weather and winds

The applicant is not required to go through the complete review process of an amendment to an existing mobile home park, unless, in the judgment of the Planning Board the amendment substantially alters the character of the original mobile home park, or unless the change constitutes a new mobile home park.

ARTICLE X - PERFORMANCE GUARANTEES

§1 Types of Guarantees

With submittal of the application for Final Plan approval, the developer shall provide one of the following performance guarantees for an amount adequate to cover the total construction costs of all required improvements, taking into account the time-span of the construction schedule and the inflation rate for construction costs:

- A. Either a certified check payable to the Town or a savings account or certificate of deposit naming the Town as owner, for the establishment of an escrow account. A cash contribution to the establishment of an escrow account shall be made by either a certified check (made out to the municipality); the direct deposit into a savings account; or the purchase of a certificate of deposit. For any account opened by the developer, the municipality shall be named as owner or co-owner, and the consent of the municipality shall be required for a withdrawal. Any interest earned on the escrow account shall be returned to the developer unless the municipality has

found it necessary to draw on the account, in which case the interest earned shall be proportionately divided between the amount returned to the developer and the amount withdrawn to complete the required improvements.

- B. A performance bond payable to the Town issued by a surety company, approved by the Selectmen. A performance bond shall detail the conditions of the bond, the method for release of the bond or portions of the bond to the developer, and the procedures for collection by the municipality. The bond documents shall specifically reference the mobile home park for which approval is sought.
- C. An irrevocable letter of credit from a financial institution establishing funding for the construction of the mobile home park, from which the Town may draw if construction does not meet the standards of this ordinance, as determined by the Selectmen. An irrevocable letter of credit from a bank or other lending institution shall indicate that funds have been set aside for the construction of the mobile home park and may not be used for any other project or loan.

The conditions and amount of the performance guarantee shall be determined by the Planning Board with the advice of the Code Enforcement Officer, Select Board, and/or Town Attorney.

§3 Contents of Guarantee

The performance guarantee shall contain a construction schedule, cost estimates for each major phase of construction taking into account inflation, provisions for inspections of each phase of construction, provisions for the release of part or all the performance guarantee to the developer, and a date after which the developer will be in default and the Town shall have access to the funds to finish construction.

Section 7: Phasing of Development

The Planning Board may require or approve plans to develop a mobile home park in separate and distinct phases. This may be accomplished by limiting final approval to those lots abutting that section of the proposed mobile home park street which is covered by a performance guarantee. When development is phased, road construction shall commence from an existing public way. Final approval of lots in subsequent phases shall be given only upon satisfactory completion of all requirements pertaining to previous phases.

§8 Release of Guarantee

Prior to the release of any part of the performance guarantee, the Planning Board shall determine to its satisfaction, in part upon the report of the inspecting official and whatever other agencies and departments may be involved, that the proposed improvements meet or exceed the design and construction requirements for that portion of the improvements for which the release is requested.

§9 Default

If, upon inspection, the inspecting official finds that any of the required standards have not been constructed in accordance with the plans and specifications filed as part of the application, they shall report in writing to the Code Enforcement Officer, Select Board, the Planning Board, and the developer

or builder. The Select Board shall take any steps necessary to preserve the Town's rights.

Variance: A relaxation of the terms of an ordinance where such variance would not be contrary to the public interest where, owing to conditions peculiar to the property and not the result of the action of the applicant, a literal enforcement of this Ordinance would result in unnecessary and undue hardship. A financial hardship shall not constitute grounds for granting a variance. The crucial points of variance are undue hardship and unique circumstances applying to the property. A variance is not justified unless all elements are present in the case.
